

beyonnex.io is paving the way for smart real estates

We support our customers in making buildings more climate-friendly, more comfortable and more affordable -- with connected real estate, simple products and high processing and service quality.

We provide our customers with efficient, tailored processes and applications for operating IoT infrastructures in real estate, as well as our flexible Enterprise-IoT-Suite, in which we manage data from many millions of sensors into intelligent products and services.

We're looking for new colleagues to join our journey as

Scrum Master (m/f/d)

Your job opportunity

With a team of product and IT experts, the future position holder will be responsible for further developing beyonnex's Enterprise-IoT-Suite and services to ensure a stable and scalable technological foundation for the strategic development of the group of companies. In addition, the following tasks will be part of your position

- Coach an agile team - one of our engineering teams, which is building new products for the Beyonnex ecosystem
- Find the right tools and methods for creating the best ideas and developing them to success
- Foster an environment and the framework to work efficiently and purposefully in a self-organized manner and advocate this to stakeholders.
- Mediate conflicts and help people find a great solution
- Promote a culture of continuous improvement.
- Drive a culture in which agile principles help focussing on our customers benefits
- Willing to learn

What we need from you

We are searching for a motivated candidate with following qualifications:

- You already have several years of experience as a Scrum Master / Agile Coach
- Your heart beats agile: You exemplify the agile mindset and thereby inspire your colleagues
- You are an expert in agile tools and methods (Scrum, Kanban, Lean, Flight Levels, ...) as well as team development
- You move forward courageously, don't shy away from new approaches and experiments, and you encourage your team to act in the same way
- You have strong communication skills, and enjoy networking

Benefits are following skills and interests:

- You enjoy self-reflection, know your strengths and weaknesses, and know how to use them for things that matter
- You bring enthusiasm and initiative to your job
- You speak English and German fluently
- You laugh at work. Several times a day!

What we offer

You will meet people from all over Europe. From different cultures, with different dialects, genders and lifestyles. We live diversity and openness in our everyday work.

When you ask anybody why they are working here, it is likely that people will say “because of the people” and “because I have never learnt so much in my life before”. Our company is a place to be yourself, aim high, taking care of each other and growing without limits.

Of course, we have a great office near Hamburg's city center, a place where you feel comfortable and have fun with your team members. But more importantly, we offer you a high degree of flexibility from where you work. We offer you the opportunity to work on challenging projects and to manage a complete large-scale project from inception to implementation and operation. You will have the opportunity to learn and work in a creative and respectful environment and build a fulfilling career in the technical field.

Do you want to become part of the team?

Send us your complete application documents (curriculum vitae and references) via email to jobs@beyonnex.io.

In case you have any questions about the offered position, your application or the application process, send us an email to jobs@beyonnex.io.

beyonnex.io is part of noventic group, a pan-European group of companies driving climate intelligent management of real estate. The independently operating noventic brands manufacture sensors, radio hardware and control devices, offer services for the operation of IoT infrastructures in real estate, and operate Enterprise-IoT-Suite as well as applications for the realization of climate goals, comfort and profitability. With around 890 employees, the company now realizes over € 200 million in sales and is considered the driver of innovation in the industry.
